

Drone Academy **Build. Program. Fly.**

2024 Summer

In collaboration with 

What:

MassRobotics is hosting the 5th Drone Academy - an exciting week of learning about "What makes drones fly". During this week, students will complete all tasks necessary to build and program a drone that includes: soldering, wiring electronic components, integration of sensors, flying the drone and more. This program was designed by Brown University, the drone kits have been commercialized by Duckietown, and the academy is sponsored by Amazon Robotics. Space is limited.

When & Where:

Date | July 8-12, 2024

Location | MassRobotics, 12 Channel St,
Boston MA 02210

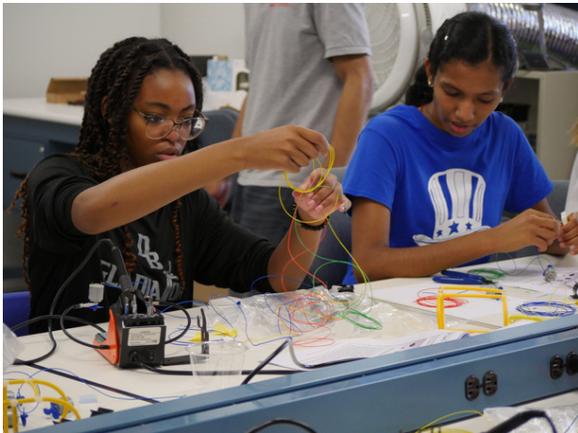

BlueTech Academy

2024 Summer

In collaboration with 

BlueTech Academy is a MassRobotics and MITRE collaboration designed to explore Robotics in an Underwater Environment. Students will be challenged to integrate various STEM concepts and will build a product that can thrive at various depths in water. The BlueTech Academy will be hosted at MassRobotics, will have MITRE experts and mentors on site to work with student participants and highlight tech careers at MITRE. Space limited.

Date | July 15-19, 2024

Location | MassRobotics, 12 Channel St,
Boston MA 02210
